- Helping users

Red Hat

How to leverage your upstream
experience in an interview

Red Hat in CZ

- Largest engineering site globally! (1500+ people)
- Software engineering, site reliability, devops, automation and quality engineering, technical writing, customer facing roles
- RHEL, OpenShift, OpenStack, RHV, Ceph, Gluster, jBoss, Ansible
- Cloud and containers technology, Python, Java, C/C++, Golang, Ruby, bash, Linux/unix, business intelligence

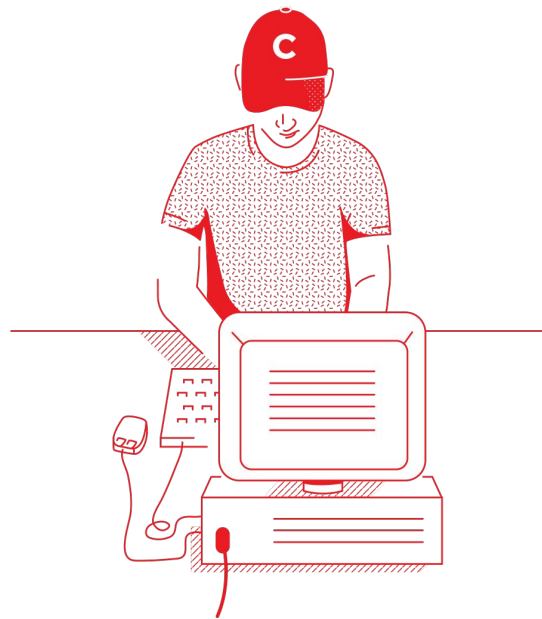

But, we also have **Non-technical** positions (project coordinators, people team, facilities)

What are the options?

- Internships (High school & University)
- Returnships
- Full-time / part time roles

Remote / office based / office flex

Before you apply

- Events (Devconf, Pycon, Linux Days, Openalt, Fedora release party ..)
- Open House, Red Hat Czech Talks)
- Communities (Pyvo, junior.guru, PyLadies, Czechitas)
- Speak with your friends in RH
- Check the jobs portal - <https://www.redhat.com/en/jobs>
- Update your LinkedIn, your portfolio on github and tweak your CV

Interview process

- Speak with the recruiter (TA screen)
- Technical screen
- Panel interview
- Offer

What if I am rejected?

- Constructive feedback
- Become part of our talent community
- Leverage the ecosystem
- Stay in touch
- Become a community member
